**Portfolio:** <https://personal-portfolio-gamma-one-16.vercel.app/>

## SUMMARY

Results-oriented Fullstack Developer currently pursuing a Bachelor's in Software Engineering at Central Philippine University . Open to part-time or internship roles. Proven ability to lead and contribute to impactful group projects, with strong skills in fullstack development, project management, and cross-functional collaboration. Passionate about leveraging innovative technologies to solve real-world problems and optimize processes.

## WORK EXPERIENCE

**Front-end Developer (Shadow Dev) | Prelude** April 2025 - Present

- Contributed to a mobile app’s successful rollout under tight deadlines
- Developed and tested reusable components with integrated React hooks
- Helped implement Intercom chat functionality for real-time customer support

## PROJECT AND GROUP EXPERIENCE

**Fullstack Developer | Tabangi.Co** Mar 2025 - June 2025

- Acted as Scrum Master in a team of developers to deliver a Legal Case Tracking System for law firms
- Facilitated sprint planning, stand-ups, and retrospectives to ensure agile delivery
- Developed fullstack features while enhancing project management and leadership skills

**Fullstack Developer | BB6** Nov 2024 - Dec 2024

- Led a team to develop Notetube, an AI-powered learning platform that transforms PDFs and notes into flashcards
- Designed UI/UX wireframes using Figma and implemented responsive frontend interfaces
- Set up the backend infrastructure, configured databases, and deployed the fullstack web application
- Oversaw the project from concept to deployment, ensuring timely delivery and quality assurance

**Fullstack Developer | Alora** Feb 2024 - Mar 2024

- Built an assistive app using finger tracking, eye tracking, and voice recognition to help users with disabilities
- Designed the UI with Tkinter and integrated real-time gesture tracking using MediaPipe and OpenCV
- Achieved 4th place in the university-level Google Solution Challenge

## EDUCATION

---

**Bachelor of Science in Software Engineering, Central Philippine University**

**Aug 2023 – Present**

- Incoming 3rd Year Student with consistent academic excellence
- Developed multiple academic and personal software projects across various domains, including fullstack apps, mobile development, and systems integration

## TECHINICAL SKILLS

---

- **Languages & Frameworks:** Python, JavaScript, TypeScript, Tailwind, Next.js, React, Node.js
- **Tools & Methodologies:** Git, Scrum, Agile, REST APIs, Figma, Google Gemini, OCR
- **Other Skills:** Engineering Fundamentals, UI/UX Collaboration, Project Leadership
- **Known Languages:** English, Filipino

## AWARDS & ACTIVITIES

---

- **2<sup>nd</sup> Place** – Odyssey Game Development Hackathon
- **3<sup>rd</sup> Place** - IED Competition (Engineering Batch-Level)
- **Semi-finalist** – Google Solution Challenge (University-Level)
- Participant in Devcon Iloilo Events
- Member of Developer Student Club - CPU
- Member of Philippine Society of Software Engineers
